## THE BIG QUINN-KING MATCH

Arrangements for the Montana Circuit Meetings Which Begin in Deer Lodge To-Morrow—Base Ball Talk.

BUTTE, July 2.—The Montana circuit proper starts on Monday at Deer Lodge. The horses will keep traveling from that date until the circuit is run, the horses going from Deer Lodge to Dillon, thence to Anaconda, Butte, Helena, Great Falls and Missoula, in the order named, the last race being run Sept. 2, two months from the date of starting.

While the entries have not been quite so many as last year, yet it is believed a larger proportion of those that entered will start, and accordingly there will be as many horses on the track as last year.

The second payments for the Butte colt races have been made for most horses, and show that in the running race Anaconda stakes for 2-year-olds, 11 out of 16 nominations will stay in. Those staying are Ryan Bros. Spoon; F. M. Starkey, Cal. Don Zalos and Miss Nelson; Marcus Daly's Chrysalis, Belle of Butte, Little Dorrit, Fairview and Fagin; W. G. Prentiss of Helena, Clara Porter; Hugh Kirkendall, Helena, Dorr; E. Evans and McDonald, Great Falls, Fannie B.

For the West Side Derby all but one horse has made second payment, so the starters will likely be: Ryan Brothers, Miles City, Al Watts and Rita H.; Marcus Daly, Riverside, Jernigan and Lottory; W. G. Prentiss, Helena, Assiniboine.

In the Moulton stakes for 2-year-olds, trotting, eight out of 16 made second payments as follows: B. F. Garr, Ogden, Idaho; Marcus Daly, A. L. Kompland, W. W. Dixon and Belle Lettres; A. C. Beckwith, Evanston, Corlett; Lee Shaner, Petaluna, Treasurer; H. Kirkendall, Helena, Lulu C.; Wiseburn Stock Farm, Los Angeles, Adelaide Lemmons.

In the trotting race, Montana stakes, for 3-year-olds, seven made second payments out of 15 entered as follows: John F. Cowan, Butte, Humming Bird; W. H. Raymond, Pullers Springs, Meteor; Williams & Morehouse, Butte, Magenta; Sam Handley, Deer Lodge, Bud L.; Willow Run Stock Farm, Deer Lodge, Orphan Dick; Marcus Daly, John Mackay and Dan O'Connell.

All have made second payments in the \$1,000 trotting race.

For the Montana stakes for 2-year-olds, trotting race, 9 out of 16 made payments as follows: W. H. Raymond, Pullers Springs, Nipper; Willow Run Stock Farm, Montana Kate; Marcus Daly, Baritone and Nightingale; T. H. Kleinschmidt, Helena, Erwin; H. Kirkendall, Helena, Eagle Wilkes; William Williams, Great Falls, Priouette; Collett & Williams, Great Falls, Suffolk; D. H. Churchill, Great Falls, Sheedway.

For the Silver City stakes for 3-year-olds there are 10 second payments of 15 nominations, as follows: Williams & Morehouse, Moqueta; Marcus Daly, Red Cherry, Merry Wilt and St. Ambrose; A. C. Beckwith, Marcus Daly, Uinta Chief, Marco Polo; Lee Shaver, Kitty B.; Wiseburn Stock Farm, Adelaide McGregor; B. C. Holly, Extravagant.

The dates of meetings are as follows: Deer Lodge, July 4 to 7. Dillon, July 9 to 13. Anaconda, July 15 to 27. Butte, July 29 to Aug. 10. Helena, Aug. 13 to 20. Great Falls, Aug. 22 to 27. Missoula, Aug. 30 to Sept. 2.

Entries from distant points are still coming in, and there is no doubt that Butte will have plenty of races during the days allotted.

A telegram was received this morning by Secretary Eltinge to withdraw the chestnut gelding Hummer owned by Thomas Tierney of San Francisco. The withdrawal is made owing to death in the family.

It is said that 40 odd horses will come from California to the Montana races. It cannot, however, be told how many horses will be in the running races until they arrive in Montana.

## Among the Wrestlers.

The wrestling match to-morrow between Jack King and W. H. Quinn promises to be the greatest sporting event in local history. All that is required to make it a success in every respect is favorable weather, for with that the attendance is assured. It is the first affair to come off under the auspices of the Athletic club and every member of the organization is interested in its success, for the club's future course in regard to similar sports will be very much influenced by the outcome of this one. It will be a contest for blood, so to speak, and both men will do their best. There is no question about that, and both King and Quinn will be seen to better advantage than in any previous match in which either has engaged. Each meets an opponent worthy of his steel. Betting is lively already and by the time the contest is on several fortunes will be at stake. King is evidently the favorite so far, although bets are about even. Quinn has any number of friends who are backing him liberally and are confident he will win the collar-and-elbow and catch-as-catch-can falls, but they also recognize that their man will have to fight for them. The contest will begin at 3 o'clock, the referee to be selected on the ground by the Athletic club.

Joe Higgins, the Irish champion, will be on hand to witness the King-Quinn match and challenge the winner. Both men have agreed to meet him, if winner, in a catch-as-catch-can match. Higgins and Quinn are both at their best in that style, while King has won his great reputation principally as a Cornish wrestler, but he is a good all style man and much heavier than Higgins. If the match is made Higgins will have any amount of backing, for he has friends in every part of the country who are willing to put up every cent on his ability. Harry Hatch, the energetic young man who assists in the management of the Keeley institute in Butte, is an old friend of Higgins and is ready to put \$500 on him in a match with either King or Quinn.

The wrestling tournament that was to have commenced in the Milwaukee beer hall to-morrow, will be held at the Centerville pavilion on Monday instead. A large number of good men have already been entered and the contests will all be interesting and exciting. Mr. Job has had very hard luck of late and his friends announce that they are going to turn out in force on Monday and help to reimburse him for his past losses.

## The Base Ballists.

Manager McCormick to-day signed J. E. Powell of Minneapolis to cover the initial bag for the Butte team. He left Minneapolis to-day and will arrive at Bozeman in time to participate in Monday's game. Powell will prove a valuable addition to the team and will strengthen it at its weakest point. He covered first for Sioux

City in the Northwestern league last year and was known as one of the surest and hardest hitters and cleverest fielders in the league. There is nothing phenomenal about him, however, but he is one of those reliable men who can be counted on to play good ball seven days in the week. His fielding is always brilliant and, in the expressive language of the diamond, he fairly "rears up" low balls, which were always Gleason's weak point. He is sure at the bat and is a hitter of about Harrington's style. He is just as liable as not to smash the ball out for three or four bases and can nearly always be depended on for a base hit when one is needed, but at the same time he is always ready to sacrifice himself to advance a base runner.

Although Gleason has played hard and honest ball every since the season opened it has been felt all along that this was one of the weak points. Manager McCormick has been trying to strengthen it for the past two or three weeks, but could not find upon a man that just suited him until he struck Powell. Gleason is too valuable a man to lose, however, being a good batter and the fastest base runner on the team, and he will be fielded in the field. This will necessitate giving one of the fielders his release, but just who will go has not yet been decided on. Gleason has done some good work for the Butte team and the cranks with whom he has always been a great favorite will be glad to know that he will continue to be a member of it.

The team left this afternoon for Bozeman and will be followed to-night by Manager McCormick, C. D. French, W. H. Miller and a number of other enthusiasts, who confidently expect to see Bozeman go down twice before the champions. A large party of cranks will go over to Bozeman to-morrow night to take in Monday's game.

## VACS IN COURT.

Eldridge Demands a Trial by Jury—Other Bad Men.

BUTTE, July 2.—The first vagrancy case which was ever carried to a jury came up before Judge McMurphy this afternoon. Frank Eldridge being the accused party.

In Monday Eldridge was arrested under the city vagrancy ordinance and pleaded guilty. He was then dismissed on that charge and rearrested under the state law. The case came up this afternoon and the prisoner at once demanded a jury trial which was granted. After hearing the evidence and deliberating over it for a few minutes the jury returned a verdict of guilty and Eldridge was discharged from custody. It is understood that there is a reward of \$250 hanging over Eldridge's head for an offense committed in Denver, and the charge against him was made under the state law so that he might be held until the Denver matter could be investigated.

John Conley, Thomas Doyle and George Carney, three suspicious looking characters who came up from Anaconda Thursday night with a gang of hoboes and were arrested by Officers Gabert and Cantwell before they had been in town an hour, came up for sentence before Judge McMurphy this afternoon. They were sentenced to 60 days in the county jail, but in order to get rid of them the judge gave them 12 hours in which to get out of the county.

The backman who was fined \$5 and costs by Judge McMurphy this afternoon for violating the new back ordinance which provides that no backs or wagons shall stand unemployed on the principal business streets of the city. It is understood that the case will be carried up and the ordinance tested, all the backmen in the city combining to defeat it.

## No Chinamen Need Apply.

T. S. Merchant of the Magnolia and Healdsburg fruit cannery will be in Butte, Anaconda, Helena and Bozeman and other large towns in Montana for 8 or 10 days and take orders for his canned goods, and will then go home and superintend his cannery for the balance of the season. The Magnolia and Healdsburg brand are packed by T. S. Merchant at Healdsburg. These goods are picked from his own orchard and other orchards around there. No decayed fruits are put up with this brand. No San Francisco swill goods, and nothing but granulated sugar used to put up these goods. Nothing but boys, girls, women and men are employed in this cannery, and to the number of 600 or 700, and Mr. Merchant prides himself that he is the only fruit cannery on the Pacific coast who does not employ Chinamen. These fruits can be found in all first class grocery stores in Butte.

## Cut His Way Out.

BUTTE, July 2.—The sheriff's office to-day received a notice from Missoula to be on the lookout for a young man named Dacey, who cut out of jail at that place this morning. Dacey is the fellow who here a few weeks ago while in the act of whispering to a burglar on trial. When searched a lot of jewelry was found on him, which was identified as having been stolen from a jewelry house in Missoula, to which place Dacey was taken.

## On a Strike.

BUTTE, July 2.—The plumbers' helpers employed by Walker & Atchison went on a strike yesterday. They quit work at noon, their grievance being that they were required to work until 6 o'clock. There were four boys and one man who struck. They called for their pay this evening and the boys say they were told there was no money in the bank to pay them. The boys then formed a union.

## It is a Lie.

BUTTE, July 2.—Mrs. John Collins called at the STANDARD office this evening to deny with all emphasis the report circulated by some neighbor that Mr. Collins had made a complaint against his mother to the board of county commissioners, and been sent to the poor farm. Mrs. Collins says the story is totally false and she wants her neighbors to know it.

## IN THE COURTS.

The Jury Gives Mr. Murray a Verdict of \$4,000 Against the N. P.

BUTTE, July 2.—Attorney George Haldorn has been retained in another big railroad damage suit in which the complaint was filed in the courts at Helena to-day. His success in the Reece case brought him a client in Charles Schmidt, who has been lying in the hospital at Helena since the 16th of last September. He was at that time a fence builder in the employ of the Montana Central, and on that date was riding on a hand car with other employees through a cut about three miles below Cascade when they were run into by a special passenger train with President Hill on board. The special was coming around a sharp curve without, it is alleged, giving any notice of its approach, contrary to law and the rules of the railroad company. When the special came in sight Schmidt jumped and was hurt in the fall. The train then struck the hand car and threw it on top of him. He is completely paralyzed and is a total wreck. The suit commenced to-day is for \$30,000 damages.

## An Injunction Refused.

Judge McIlhatten this morning rendered a decision in the case of Durfee against the Granite Mountain Mining company which was recently tried by him in the Deer Lodge court. Durfee sued for heavy damages and for an injunction against the company restraining it from using property claimed by him. The jury awarded him \$1 as damages and the costs in the case. A few weeks ago Durfee's attorneys moved the court to adopt the findings of the jury and order a perpetual injunction. The decision by Judge McIlhatten this morning was on that motion. He approved the findings of the jury but denied the injunction. The opinion was a verbal one and very long.

The jury in the right of way case of the Northern Pacific against James A. Murray brought in a verdict this morning, awarding Murray \$4,000 as the value of the land on the Railroad. The claim appropriated by the railroad on January 28, 1889. He was also given the costs against the company. The board of appraisers from which Murray had appealed had awarded him \$2,300, but he was not satisfied and he is not satisfied with the verdict given him to-day and gave notice of a motion for a new trial. He was granted 60 days to file a bill of exceptions and statement. He had asked for damages also, but the jury did not think he was entitled to any. Nearly all matters set for hearing in Judge McIlhatten's court to-day were, on request of parties, continued until next Saturday. The motion to dissolve the attachment in the case of P. A. Largey against the Blue Bird Mining company was continued along with the rest.

## Fraud Charged.

A few days ago a jury awarded judgment for \$355 in favor of B. H. Block in a suit for debt against Emanuel Hauswirth. An execution for the amount was issued but returned by the sheriff unsatisfied, as no property could be found. To-day Block commenced a suit against Emanuel and Christian Hauswirth, alleging that while the first suit was pending against B. Hauswirth he transferred his property to his brother, with the intention of evading his creditors. The court is asked to set aside the transfer.

W. I. Lippincott, as attorney for the Big Blackfoot Milling company, this afternoon commenced a suit against the Blue Bird Mining company, Hoge, Brownlee & Co., and other judgment creditors of the Blue Bird company, to recover \$3,678.04 alleged to be due on material furnished the mining company.

## A Capital Suggestion.

There is some talk of Butte's entering the capital fight this fall, but as yet no steps have been taken by the citizens of that city to lead the voters of the state to believe that Butte wants the capital. All the talk so far has been made by the newspapers, and that has been more in the nature of a burlesque than an endeavor to arouse the people to an earnest consideration of an important question. The Butte newspapers are evidently not in earnest. If they were they would not omit the strongest argument in favor of the Copper City, and the only argument that might induce the voters of Montana to locate the capital there. That is the effect that such location would have upon the professional politicians. No one will pretend to believe that even the constitution of a Montana politician could long withstand the ravages of the Smoky City's climatic conditions. With the capital located there the race would soon become extinct, and the advantages that would accrue to the state by such a consummation cannot be computed in the present state of mathematical science. We merely suggest this line of argument at this time, but hope soon to see it taken up by the Butte papers and worked for all there is in it.
